LOT 7 - Amana Package Terminal A/C Heat Pump Model # PTC153B50AE

Description

NEW old stock 2012 in the BOX!

The Amana **PTC153B50AE** Comparable to current model PTC153B50AM. These are both 14,000 BTU Packaged Terminal Air Conditioner (PTAC) with a 5.0 kW electric heater, designed for through-the-wall installation—commonly used in hotels, apartments, and commercial spaces. Here's a breakdown of its key specifications and features:

Specifications

- **Cooling Capacity:** 14,000 BTU
- **Electric Heat Capacity:** 17,100 BTU
- **Airflow (CFM):** 325
- **Dimensions:** 42" W x 21.5" D x 16.06" H
- **Chassis Type:** Thru-the-wall
- **Control Type:** Digital (DigiSmart Control Board)
- **Remote Control:** Not included

Electrical Requirements

- **Power Supply:** Requires a **230/208V** dedicated circuit.

- **Amperage:** The 5.0 kW heater typically needs a **20-amp or 30-amp** circuit, depending on local code and wiring.
- **Receptacle Type:** Use the correct NEMA plug configuration (usually **NEMA 6-20P or 6-30P**).

Quantity: 1
